

Full Body System

The **TheraTogs Full Body System** was originally designed for children with complex neuromotor disorders, and is now available in a full range of sizes for a variety of applications.

The system wraps the torso in a Velcro-sensitive "strapping field" that allows the clinician to attach straps that can improve postural alignment and stability, and that can address the greatest variety of functional alignment and movement issues in the extremities proximal to the wrists and ankles.

TheraTogs are an effective modality for the management of neuromotor disorders caused by a wide range of diagnoses:

- **Cerebral palsy**
- **Down Syndrome** and other chromosomal abnormalities
- **Traumatic Brain Injury** - acute, post-acute, and chronic phases
- **Hemiplegia** due to **Stroke** - acute, post-acute, and chronic phases
- **Multiple Sclerosis**

THE TYPICAL THERATOGS WEARER GETS 50 HOURS OF WEARABLE THERAPY A WEEK!

If your client has these indications...	A Full Body System can provide...
Flexible kyphosis or (mild) scoliosis	Improved posture and respiratory capacity
Flexible lordosis / excess pelvic tilt	Improved posture
Difficulty maintaining midline trunk and sitting balance	Reduced deviations between thorax and pelvis; increased sensory awareness
Scissoring in stance or gait	Increased base of support, assist hip abductors
Balance problems due to hip muscle weakness.	Assist to hip stabilizing musculature
Problems with proximal limb joint control, including elbow and knee.	Reduced functional degrees of freedom; assist to muscles lacking adequate recruitment.
Intoed or out-toed gait; windblown gait, accompanied by issues of torso alignment or control.	Reduced these gait deviations.
Recovery following orthopedic surgery at the spine, hip, or femur.	Improved stability and comfort; strapping to support surgical goals.

Model Sizes

Model No.	Description	Model No.	Description
#50	Small Infant: Boys/girls to 15 lbs	#610	Medium Adult Female: 140-170 lbs
#100	Infant: Boys/girls 15-25 lbs	#620	Large Adult Female: 170-200 lbs
#200	Preschool: Boys/girls 25-45 lbs	#700	Small Adult Male: 110-145 lbs
#300	Pediatric: Boys/girls 45-65 lbs	#710	Medium Adult Male: 145-170 lbs
#400	Petite Adult M/F 65-110 lbs	#720	Large Adult Male: 170-190 lbs
#600	Small Adult Female: 110-140 lbs	#730	X-Large Adult Male: 190-240 lbs

How to Order

- ❑ In the USA, TheraTogs may be ordered through your local or regional orthotist or DME network, particularly if reimbursement is a requirement. See the TheraTogs website (www.theratogs.com) for a list of Providers in your area.
- ❑ TheraTogs are also carried by leading distributors in the physical rehabilitation field all over the globe.

About TheraTogs

TheraTogs provide a foam-lined, Latex[®]-free, breathable, comfortable, Velcro[®]-sensitive “external skin” for clinicians engaged in sensorimotor training of clients with developmental disabilities and selected orthopedic malalignments, and for clients in rehabilitation following brain injury, stroke, orthopedic surgery, or neurosurgery.

TheraTogs are made of a patented, washable composite fabric with a foam backing made of an aqueous-based elastomeric urethane. TogRite™ is Latex-free elastomeric strapping with an inert, silicone-based grip surface.

TheraTogs™ are Class I medical devices intended to be issued by, and applied under the supervision of, a licensed healthcare practitioner.

TheraTogs are U.S. and foreign patent pending.
