

Wrist & Thumb Clinical Sizing Kit

The TheraTogs Wrist & Thumb System Clinical Sizing Kit is a cost-effective tool for school-based or private therapy practices, early intervention programs, hospitals, rehabilitation centers, and orthotics offices that see to the needs of children and adults with CNS dysfunction, brachial plexus injury, and orthopedic problems involving the wrist and thumb.

A Wrist & Thumb Clinical Sizing Kit provides your facility with a collection of the TheraTogs Wrist & Thumb Systems in multiple sizes within a specific age and size range, for your use in previewing the effectiveness of the system, and in selecting the correct size for your client.

Every Sizing Kit contains one Wrist & Thumb unit in right and left configurations for each size included in the kit, plus a sampling of all the straps and cuffs that would be included in each complete system. The sizing kit is a less costly option for undertaking clinical trials than purchasing complete sets in the same span of sizes.

EACH SIZING KIT ALSO COMES WITH A STRAPS & TABS ORGANIZER PANEL - VERY USEFUL FOR STORING AND KEEPING YOUR THERATOGS LIMB CUFFS, STRAPS, AND TABS IN GOOD ORDER AND EASILY ACCESSIBLE!

The Wrist & Thumb Sizing Kit can benefit your:

- School-based or private therapy practice
- Early intervention program
- In-patient or out-patient clinic
- Rehabilitation services department

If your practice requires you to...

- Demonstrate garment fitting and strapping applications to caregivers
- Evaluate and trial TheraTogs applications for each patient
- Demonstrate TheraTogs effectiveness for caregivers -- increasing compliance and proper application
- Support reimbursement applications by videotaping or photographing results
- Confirm correct TheraTogs sizing and model numbers before ordering

...The Wrist & Thumb Sizing Kit is designed for you!

About TheraTogs

TheraTogs provide a foam-lined, Latex[®]-free, breathable, comfortable, Velcro[®]-sensitive “external skin” for clinicians engaged in sensorimotor training of clients with developmental disabilities and selected orthopedic malalignments, and for clients in rehabilitation following brain injury, stroke, orthopedic surgery, or neurosurgery.

TheraTogs are made of a patented, washable composite fabric with a foam backing made of an aqueous-based elastomeric urethane. TogRite™ is Latex-free elastomeric strapping with an inert, silicone-based grip surface.

TheraTogs™ are Class I medical devices intended to be issued by, and applied under the supervision of, a licensed healthcare practitioner.

TheraTogs are U.S. and foreign patent pending.
